

**TOP TEN REASONS WHY EVERY RSA MEMBER SHOULD ADOPT
AND USE THE RSA/IALDA RISK MANAGEMENT GUIDELINES
IN THEIR ROLLER SKATING CENTERS**

1. Incorporating the RSA/IALDA Risk Management Guidelines into your overall safety program will help reduce the number of accidental injuries occurring in your roller skating center.

2. Fewer accidental injuries in your roller skating center means fewer claims and lawsuits.

3. By reducing the number of accidental injuries, claims and lawsuits involving your roller skating center, you will help the RSA-endorsed insurance carrier maintain a stable, long-term program with the potential for reduced premiums.

4. The RSA/IALDA Risk Management Guidelines will help create a culture of safety in your roller skating center where your entire work force, from top to bottom, will follow your commitment to safe practices.

5. Adopting the RSA/IALDA guidelines will help strengthen your legal defense position by documenting your commitment to safe practices.

6. By following the RSA/IALDA Risk Management Guidelines, your managers and supervisors will know how to thoroughly investigate patron accidents no matter how or where they occur.

7. By providing the safest possible roller skating center, you will enhance the reputation of your business in the community and will help promote roller skating as the recreation of choice in your area.

8. The RSA/IALDA Risk Management Guidelines are comprehensive, but not complicated, and will be easy to adapt to your roller skating center.

9. By following the BPAAs Risk Management Guidelines, you will make your roller skating center a "tough target" for any plaintiff's attorney and word will spread that your roller skating center will fight frivolous claims.

10. Because a safe roller skating center is good for business!
