### OVERVIEW

Linda practices exclusively in the area of workers' compensation defense. As an advocate for her clients, Linda not only defends insurance carriers and self-insured employers in workers' compensation matters, but also provides guidance for implementing effective risk management strategies and workers' compensation programs with an eye toward cost efficiency. When businesses are audited by the State for workers' compensation coverage compliance or subject to stop-work orders, Linda partners with them to develop a strategic defense approach. She also assists clients with premium disputes and some employment matters, and also represents uninsured employers with regard to workers' compensation claims.

Linda is an active instructor who lectures on various issues involving workers' compensation. She has lectured on behalf of the Workers' Compensation Section of The Jacksonville Bar Association, Lorman Education Services and AAA Construction School. She is also a Certified Instructor of Insurance Education, State of Florida, and often presents seminars to clients. Linda also speaks regularly for the Workers' Compensation Claims Professionals organization.

Prior to joining Marshall Dennehey, Linda was the workers' compensation practice group leader at one of the leading defense firms in the southeast. Linda has been awarded an AV® Preeminent™ rating by Martindale-Hubbell, the highest rating for professional competence.

Linda is a native of Jacksonville. Before entering law school, she worked as a business consultant for a national management company.

## RESULTS

### Settlement Agreements Upheld in Florida Workers' Compensation Cases

#### **Workers' Compensation**

**January 31, 2024**

We successfully argued that a settlement agreement, based upon a binding and enforceable agreement reached via email between the parties, is enforced. The claimant had given her attorney authority to settle, but subsequently changed her mind. Based upon case law, there was unequivocal authority to settle and it was too late for the claimant to negate the agreement previously reached. The judge of compensation claims agreed and upheld the settlement.

### Successful Defense of PTD Benefits and More in Florida.

#### **Workers' Compensation**

**April 11, 2019**

We successfully defended a petition for permanent total disability benefits, supplemental benefits and penalties, interest, costs and attorneys fees. The judge entered a Final Compensation Order, finding the claimant was not permanently and totally disabled despite a substantial, but not exhaustive, job search.

### Defense Verdict in Final Compensation Order

#### **Workers' Compensation**

**January 17, 2019**

The order involved multiple petitions filed by a *pro se* claimant for compensability of contact dermatitis and concrete burns allegedly sustained while working. The judge ruled in favor of the employer on all petitions, finding compensability was previously resolved and the ongoing issues were moot. The judge denied and dismissed, with prejudice, claims for temporary total and temporary partial disability benefits, authorization of medical care, and all corresponding penalties and interest.
